HOME REPAIR PROGRAM FUNDS AVAILABLE TO GLENDALE RESIDENTS *Applications Available for Financial Assistance for a Range of Projects*

Glendale, Ariz. — With the arrival of spring, many make this the time of year to take on home repair projects. The City of Glendale's Community Revitalization Division reminds residents about the city's Single Family Rehabilitation Program. This program provides Glendale's single family residents with a chance to get financial assistance for housing rehabilitation, roof repairs, emergency repairs and exterior improvements.

Through a variety of federal grants such as Community Development Block Grants (CDBG), the City of Glendale offers this program to assist low to moderate income homeowners to make the needed improvements to their homes with financial assistance to absorb the immediate cost of the repair.

"As residents in Glendale are outside working on their projects around their houses and yards it is the perfect time to make sure roof and exterior maintenance is also done," explains Glendale's Community Revitalization Department Supervisor, Charyn Eirich-Palmisano.

"There is never an opportune time for a costly repair to a roof or the exterior of the home but right now the City of Glendale is taking applications and we are able to help homeowners with these overwhelming projects by providing a deferred loan to cover the portion a homeowner's insurance does not cover," Eirich-Palmisano said.

Through an application process, low to moderate income homeowners can apply for the funds to repair unsafe or deteriorating conditions. The property must be within Glendale city limits and must be owner-occupied for at least one year. Proof of homeowner's insurance is required. Visit here for an [application and more information on the qualifications](#) for the Single Family Rehabilitation Program. To reach the Community Revitalization Division, call 623-930-3670.
